

How to Customize the Design of an Orthosis/Brace

Client Name: _____

Contact Number: _____

Email: _____

Go to: friddles.com or myrdalorthopedics.com

Under the "Paper Transfers" section, choose a pattern/colour.

This will be the main background for the orthosis/brace (we recommend choosing three options in preference order in case your selection is out of stock.)

Further customize your device with "Friddles on the Spots" or "Positive Image Transfers". These images (tattoos) can be printed on your straps or on the orthosis itself (please specify location). **Personal images may also be submitted as tattoos. Fill out the following information and submit this document and personal image(s) to the email below. Images should be high resolution images.**

Please Note: Tattoos are not suitable for SMO devices and only a background should be chosen.

Contact Ortho Design as soon as possible with your choices.

Without this information we are unable to finish your devices in a timely manner especially if product needs to be special ordered.
